

HOONAMIK TRADE

QUALITY

DIMENSIONAL
ACCURACY

Hoonamik Trade Company is specialized in trading ferrous metals, non-ferrous metals and raw materials, including but not limited to aluminum, zinc and lead ingots, copper cathode, steel billets, carbon steel long products and HBI/DRI. We are advancing trade by forging strong bonds with commodity producers, processors and end users. We source, store, and deliver commodities worldwide.

OUR HISTORY

The roots of our business go back to 2018. We have been focused on trading since the beginning. Hoonamik Trade Company is specialized in trading ferrous and non-ferrous metals including but not limited to aluminum, zinc and lead ingots, copper cathode, steel billets, HBI/DRI, carbon steel long products. We are advancing trade by forging strong bonds with commodity producers, processors and end users. We source, store, and deliver commodities worldwide.

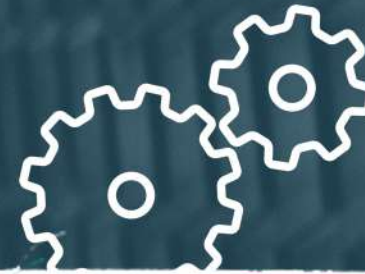

We use our market knowledge, logistics and infrastructure to connect to producers, processors and end users of physical commodities. Our main clients include state agencies, manufacturers, utilities, power plants, energy retailers and construction companies.

VISION STATEMENT

- Customer oriented: achieving mutually beneficial relationships with our customers through long lasting business experience.
- Committed to growth: hand picking and training the best and the most experienced team in the business.
- Trusted supplier: Through teamwork, efficiency and accountability deliver unrivaled goods with exceptional service and on-time completion.

MISSION

Hoonamik trade is a company operating in trading ferrous and non-ferrous metals. We strive to provide our customers with a comprehensive range of services and a quality of product that fully meets or exceeds their requirements and expectations. We act independently, with the highest level of integrity and expect to become leaders in our markets.

PRODUCTS

Copper cathode

Lead ingots

Zinc ingots

Carbon steel long products

HBI/DRI

Steel billets

Aluminum ingots

PRODUCTS

Aluminum ingots

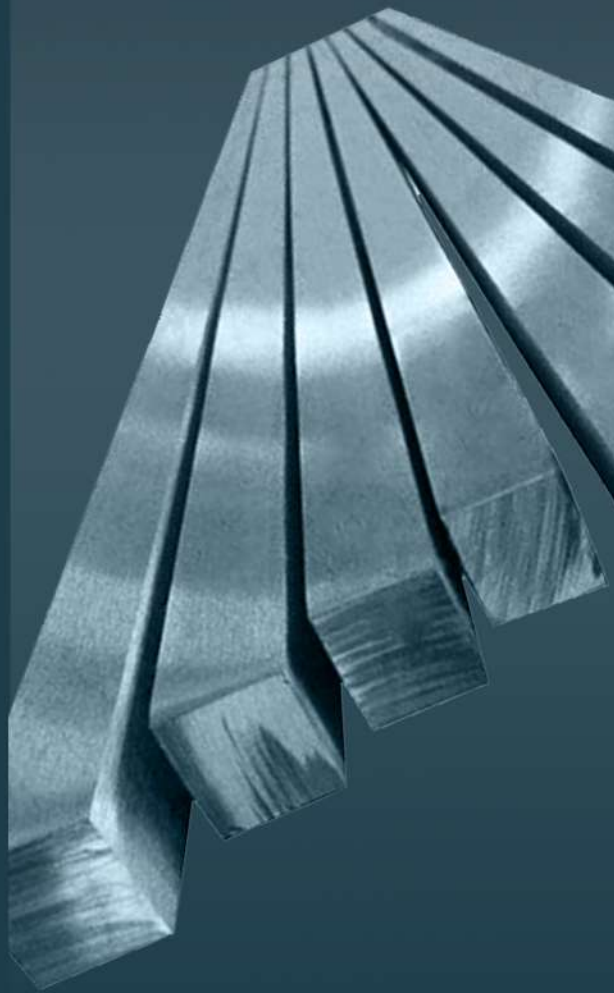

We source and supply aluminum ingots from prominent producers. The purity of these ingots varies from high grade (99.7-99.85) to low grade (99.00-99.65) to lower purities according to the market demand (99 or lower).

- 1000-pound sows and 50-pound ingots
- Each sow weight from 450 to 550 kg.
- each ingot weight from 20 to 25 kg
- no sharp edges.

Steel Billets

We provide you with 3sp and 5sp grade steel billet alloys, in various sizes ranging from 130*130, 150*150, 200*200, in different lengths (6 and 12 meters).

Copper cathode

Copper cathode comes in two forms electrolytic and leaching cathodes. Minimum cu in electrolytic cathode is 99.994% and in leaching cathode is 99.997.

We supply high quality copper cathode based on our customer's need. These copper cathodes are mostly used in electronics, cable production, production of alloys and etc.

PRODUCTS

Beam

I-beam equivalent to IPE, according to standard DIN 1025/5 and EN 10034

Equal angle

Hot-equal angles according to standard EN10056-12

Channel

Hot-Rolled Channels according to standard DIN1026-1,2 and EN10279 and GOST8240

Round Bar

Round bar (plain and deformed) according to DIN and GOST standards.

Classification	Designation	Equivalent standards		
Plain round bar	S 240	A1	-	SR 24
Deformed bars	Aj340	A11	A615G40	SD 35
	Aj400	A111	A615G60	SD 40

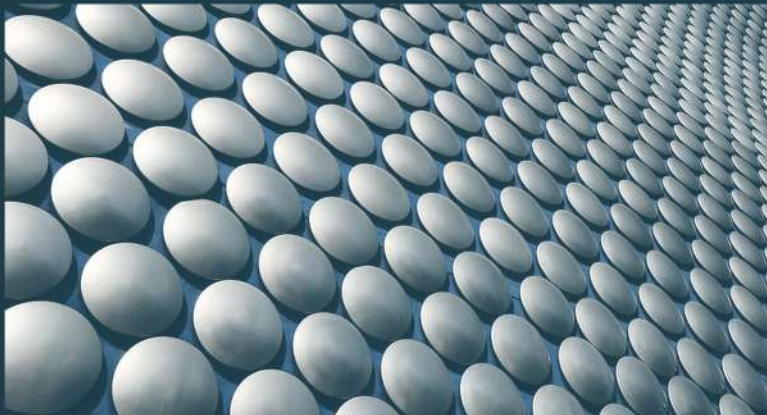

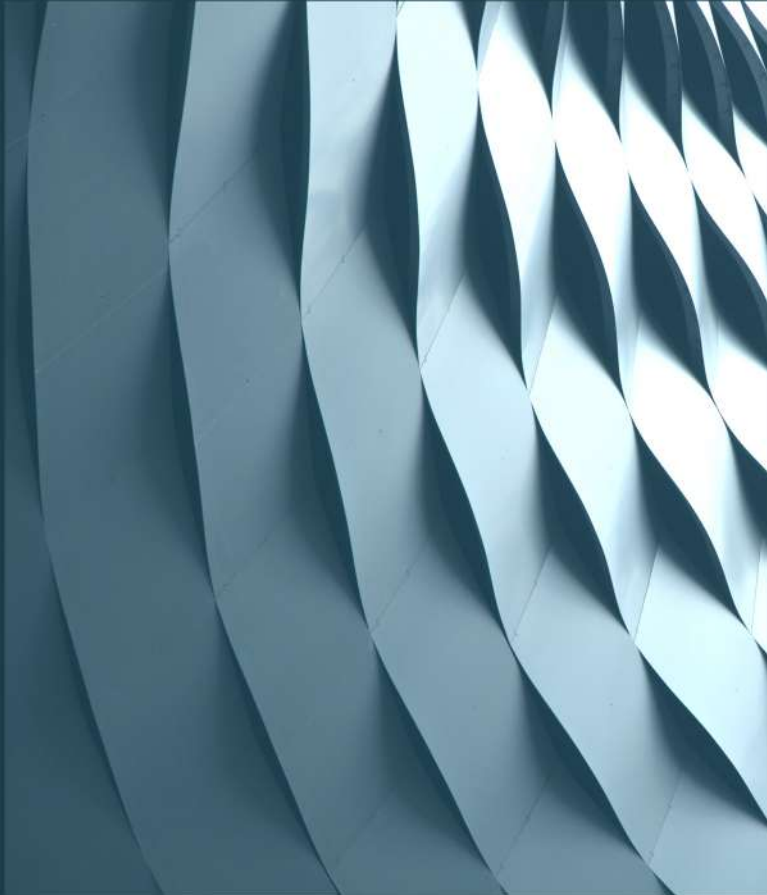

HBI/DRI

Our Hot Briquetted Iron and Direct Reduced Iron have the best quality considering their chemical and physical composition; which are suitable for use in electric arc furnaces (EAF), and induction furnaces. The minimum percentage of Fe Metal in these products is 80%.

PRODUCTS

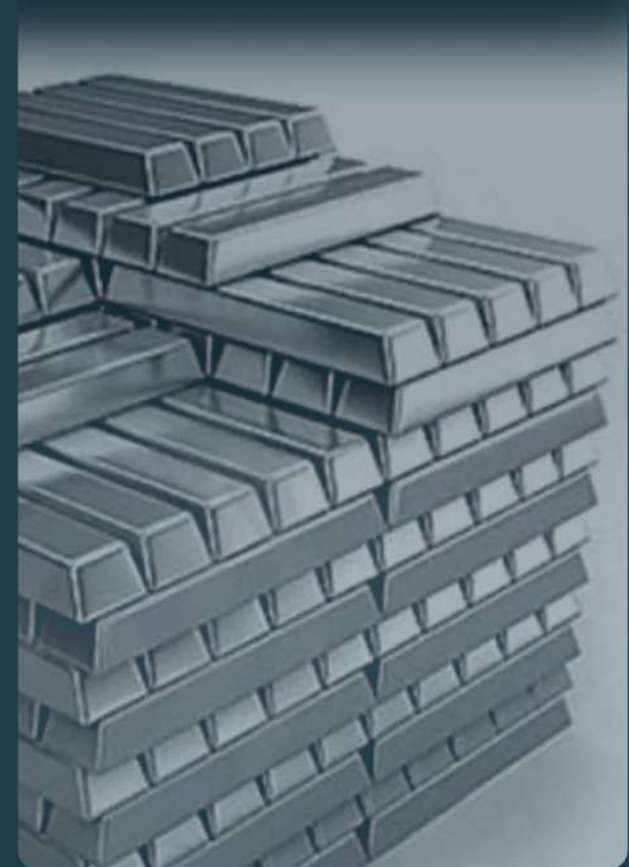

Lead ingots

At Hoonamik trade we source and supply lead ingots from well-known producers with 99.99% purity according to needs of our customers in the production of batteries, pigments, cable sheathing, steel and production of alloys.

Zinc ingots

We supply and deliver zinc ingots in the range of 99.95 to 99.98 to be used for galvanizing and in making brasses and alloys for die-casting, zinc oxide, zinc plate.

"Anyone can sell catalogue products and many do, but with Hoonamik trade you get a lot more than just industrial supplies off the shelf: we specialize in personalized items that are specially tailored to meet your requirements."
